3 Minimize Critical Requests Depth

12 chains found

✓ Passed audits

15 audits

Accessibility

These checks highlight opportunities to [improve the accessibility of your web app](#). Only a subset of accessibility issues can be automatically detected so manual testing is also encouraged.

Internationalization and localization

These are opportunities to improve the interpretation of your content by users in different locales.

- 1 <html> element does not have a [lang] attribute

Names and labels

These are opportunities to improve the semantics of the controls in your application. This may enhance the experience for users of assistive technology, like a screen reader.

- 2 Links do not have a discernible name

Tables and lists

These are opportunities to improve the experience of reading tabular or list data using assistive technology, like a screen reader.

- 3 Lists do not contain only elements and script supporting elements (<script> and <template>).

10 audits

SEO

These checks ensure that your page is optimized for search engine results ranking. There are additional factors Lighthouse does not check that may affect your search ranking. [Learn more](#).

Content Best Practices

Format your HTML in a way that enables crawlers to better understand your app's content.

1 Document does not have a meta description

Mobile Friendly

Make sure your pages are mobile friendly so users don't have to pinch or zoom in order to read the content pages. [Learn more](#).

2 Tap targets are not sized appropriately

80% appropriately sized tap targets

⊖ Not applicable

2 audits

Progressive Web App

These checks validate the aspects of a Progressive Web App. [Learn more](#).

Fast and reliable

1 Page load is fast enough on mobile networks

2 Current page does not respond with a 200 when offline

3 start_url does not respond with a 200 when offline

No usable web app manifest found on page.

Installable

4 Does not use HTTPS

3 insecure requests found

5 Does not register a service worker that controls page and start_url

- 6 Web app manifest does not meet the installability requirements  
Failures: No manifest was fetched.

PWA Optimized

- 7 Does not redirect HTTP traffic to HTTPS  
- 8 Is not configured for a custom splash screen  
Failures: No manifest was fetched.
- 9 Does not set an address-bar theme color  
Failures: No manifest was fetched, No ``<meta name="theme-color">`` tag found.
- 10 Content is not sized correctly for the viewport  
The viewport size is 434px, whereas the window size is 412px.
- 11 Has a `<meta name="viewport">` tag with width or initial-scale  
- 12 Contains some content when JavaScript is not available  

Additional items to manually check
